Consolidated Aircraft, IAW CFR Part 120, maintains a drug and alcohol program (see attached Ops Spec A449). Consolidated also monitors all work to vendors, at any tier, for compliance with current FAA drug and alcohol rules.

Consolidated has on file a quality survey and Ops Spec for outside vendors. All subcontracted work orders have a statement requiring Consolidated be notified if the vendor is not an FAA repair station or lacks an FAA approved drug or alcohol program. This prevents any chance of vendor changes causing Consolidated to be out of compliance.

In addition, quotes from Consolidated to the customer will state that Consolidated and its vendors are in compliance with current FAA drug and alcohol rules.

In the event a vendor cannot comply with FAA drug and alcohol rules, Consolidated's inspection department will make a determination and notify the customer as applicable for work Consolidated Aircraft or its subcontractor performs.

Yours truly,

Gary Matza  
Chief Inspector
